

India's growing international trade scenario offers strong investment opportunities in container logistics, according to Netscribes' ICD/CFS report

Netscribes (India) Pvt. Ltd., launches its ICD/CFS report covering the most profitable sector in the container logistics segment. Industry has strong growth potential due to rising EXIM trade and specifically containerized traffic. The report is part of Netscribes' Logistics Industry report series.

Mumbai, India – March 20, 2009 – Netscribes (India) Pvt. Ltd., a knowledge consulting solutions company, announces the launch of its Inland Container Depot (ICD) and Container Freight Stations (CFS) in India report. The growth in cargo traffic coupled with the demand for specialized services is creating tremendous opportunities for investing in this sector.

The report provides a snapshot of the ICD/CFS market in India, including the market size and growth figures. Functions and benefits of these facilities coupled with the set-up procedure of these establishments have been highlighted. Industry drivers such as rising port traffic, fallout of acting as a custom clearance hub and high profit margins are discussed. Challenges include the high costs of development and procedural issues concerning transportation activities. Competition covers the key players with their investment strategies, geographic presence and financial performances.

The ICD/CFS report is part of Netscribes' Logistics Industry series, which also includes Warehousing and Cold Chain.
