

FOR IMMEDIATE RELEASE

Government initiatives in Denmark driving the wind energy sector, finds Netscribes

Netscribes (India) Pvt. Ltd., launches its Wind Energy - Denmark report covering an industry with strong growth potential. The strong electricity export market is expected to boost the wind energy sector in Denmark.

Mumbai, India – October 10, 2009 – Netscribes (India) Pvt. Ltd., a knowledge consulting solutions company, announces the launch of its Wind Energy – Denmark report covering one of the major growth segments in the renewable energy industry. The government's active participation and the potential for wind energy development provide tremendous opportunity for investments in this segment.

The report begins with an overview of the wind power industry in the European Union indicating the installed capacity, growth and the electricity generated as well as the future growth expected in the market. Denmark's current and future wind power scenario has been covered including installed capacity, electricity production mix and the forecasted growth based on energy targets. An analysis of the key characteristics of the market explains factors contributing to the huge potential based on the high penetration levels, streamlined planning process, major offshore grid capabilities, booming wind turbine market, strong opportunities in developing offshore wind farm capabilities, taxation process, cost advantages which has been attracting players, and the major energy export market.

The government regulations have been highlighted which includes regulations for onshore and offshore wind farm development. The major government programmes and initiatives forwarded towards the development of the industry including research and development initiatives, a Visionary Danish Energy Policy 2025, Wind Turbine Re-powering Programme, agreement on Danish Energy Policy for 2008-2011, special subsidies granted to wind-based power generation projects, the Danish Consortium for Wind Energy Research and the European Union's Renewable Energy Directive for 2020 have been discussed.

Competition section profiles the major players in the market. The section contains a snapshot of the corporation, financial performance and business highlights, providing an insight into the existing competitive scenario.
